Planning Zones

The following Planning Zones pertain to this property. Please refer to the Tasman Resource Management Plan or contact a Duty Planner for detailed information about what activities can take place in a zone.

Zone	Zone Description
Rural 1	The Rural 1 Zone contains the small area of the District's land which has the highest productive value. In general, this land is suited to a wide range of uses including intensive soil-based production. Rules for subdivision and development primarily protect the productive land value on a long-term basis.
Rural 2	The Rural 2 Zone covers land areas which have varying productive value and less versatile soils. The land in Rural 2 is more extensively farmed and zone subdivision and development rules primarily protect this capacity on a long-term basis.

Building Permits

The NZ Building Act came in to force on 1 July 1992. From that date, the issue of building permits ceased and they were replaced with building consents. Under the old permit system there was no requirement for Council to keep or provide records of building work. While Council generally holds records of permits issued, often little or no information is available regarding results of building inspections. Should an evaluation of the building be required, an independent qualified person should be consulted.
